

The group Asseco SEE is the largest operator in South-Eastern Europe in terms of revenue derived from sales of its software and services. We came into being as a result of the integration of the experience, knowledge and solutions of major segment leading IT companies operating in the region. Since the beginning, our company's subsidiaries focused on developing their own solutions in their market segments. Our mission is to build a trustworthy and profitable global IT company providing our customers with high quality software and services.

We are currently accepting applications for the following position:

DevOps Engineer

About your Role

As a **DevOps Engineer** in our **International Development Team**, you will be involved in designing, developing and maintenance of software delivery pipelines. You will be in charge of automation of build, test, release and deployment process, and you will work directly with software and system engineers to streamline automated and predictable software deployment. Also, you will do automation of environment provisioning and plan and gather telemetry from customer environments. You'll be joining the team at an exciting time as we learn and apply **challenging new technologies**: Angular 2, Camunda BPM, ASP.Net Core, Node.js, MongoDB, PostgreSQL, RabbitMQ, Docker.

About you

- You hold a Bachelor's Degree in Computer Science or related field
- You have at least 3 years of experience in Linux administration, scripting and virtualization
- You have strong knowledge of CI/CD, Git, Bash, infrastructure as code, SQL
- You are fluent in English
- You have a strong drive to achieve the best results against internal and external standards of excellence
- You have strong analytical skills and ability to solve complex problems
- You are a good team-player
- You are open to acquiring new skills and competencies, as well as improving existing

Bonus Points

- Experience with Jenkins, PowerShell, TFS, Node.js, .NET, Java, Azure
- Experience with Docker containers, networking, and Windows administration

What we offer

- Full-time indefinite employment
- Flexible working hours
- Opportunity to work with an excellent team of people
- A mentor and manager to help you develop technical skillset in a dynamic environment, with additional trainings to help you advance on this journey
- Other benefits (private health insurance for you and your immediate family, free gym, casual dress code, etc.)
- When you join us, we want to make sure you feel valued – and that you are rewarded for your great work!

If you meet the requirements and wish to apply, please contact our HR department under following address:
