

Luka Veljović

Electrical Engineering Student

In search for an internship in area of digital electronics. Hoping to apply my set of skills and improve them by hard work. Motivated to learn and work in a team.

📍 Belgrade, Serbia

EDUCATION

Electronics

School of Electrical Engineering, University of Belgrade

09/2014 – Present

Relevant Courses

- Digital Electronics
- Objected Oriented Programming (C++)
- Computer Electronics
- Programming 1& 2 (Pascal & C)
- Computer Architecture and Organization
- Practicum in Software Tools in Electronics (Linux,Python)
- Practicum in Computers (Computer Networks)
- Practicum in Components and Making of Electrical Circuits

High School

The Forth Gymnasium in Belgrade

09/2010 – 06/2014

School of Music

Davorin Jenko, Belgrade

09/2004 – 06/2008

PERSONAL PROJECTS

Machine Simulator - Objected Oriented Programming

- Main project of the course. Making a compiler and machine simulator in dataflow architecture in C++.

Discovering Subliminal Messages in .wav Songs

- Main project of Computer Electronics course made in Assembly language.

Implementing Printed Circuit in Altium CircuitMaker

- Making a PCB for the given circuit's functional schematic.

SKILLS

Digital Electronics

C

C++

Matlab

Assembly

Latex

MS Office

Linux

Windows

Visual Studio

Altium CircuitMaker

Teamwork

Communication

Persistence

PERSONAL ACHIEVEMENTS

Marathon

Four times ran full marathon.

Third place in Elekrijada rowing contest (2016,2017)

Leader of the faculty's rowing section.

ORGANIZATIONS

EESTEC (02/2016 – Present)

Member of Electrical Engineering Students' European Association in which I continuously improve my academic and professional life.

Rowing Club Belgrade University (06/2013 – Present)

Competed on national and international rowing contests.

LANGUAGES

Serbian

Native or Bilingual Proficiency

English

Full Professional Proficiency
