PERSONAL

- **Name**: Pavle Popović
- **Born:** 8th of February, 1997, Užice, Serbia
- **Citizenship:** Serbian
- **Current position:** student
- **Address:** Bulevar Arsenija Čarnojevića 42, Belgrade
- **Phone:** +381695172799
- **Email:** pavlepopovic9777@gmail.com
- **GitHub:** https://github.com/pavlepopovic

EDUCATION

- 3rd year student at School of Electrical engineering, University of Belgrade, module Computer engineering and Information theory – average mark 9,32 (of 10,00)
- Relevant subjects and grades :
    1) Programming 2 (C language) - 10
    2) Object-oriented programming 1 (C++ programming language) - 10
    3) Object-oriented programming 2 (Java programming language) - 9
    4) Algorithms and data structures - 9
    5) Operating systems 1 - 10
- Several awards from high school national competitions (physics and chemistry)

SKILLS

- Object-oriented programming
- Good knowledge of C++, Java, C
- Basic knowledge of Pascal
- Basic knowledge of C#
- Linux
- BASH
- Visual Studio, Eclipse, Sublime
- Basic knowledge of git
- Fluent in English
- Basic knowledge of French language

PERSONALITY

- creative, ambitious, communicative, team player, responsible, hard worker

PROJECTS

- Implementation of a set (double linked list and binary search tree representations, written in C++) (Algorithms and Data structures project)
- Implementation of a small kernel for processor Intel 8086 (Operating systems 1 project)
- Implementation of a small chatbox that enables multiple clients to have a group chat. Client GUI was implemented using Java Swing, and client/server communication was implemented using Java sockets
- Source code of projects mentioned above can be found on https://github.com/pavlepopovic?tab=repositories
