PROFESSIONAL SUMMARY

In the last two years, I've finished the courses for Microsoft C# Programming and .NET Developer after which I've finished internship mentioned below, and with it expanding my knowledge and skills. During that time, I've worked on several projects (some of them you can look at GitHub link).

In other words, I'm a developer at the beginning of his programming career, who's persistent, patient, problem-solving oriented, open-minded team-player and eager to work a job that he loves and cherishes.
